Terri,

There are so many requests flying around. What Andy just provided you has nothing to do with the Delaware spill. The attachment is for the other inquiry about Clean Harbors.

Thanks,

Joan

Terri,

Here is a copy of the 2021 Enforcement action with the facility. The facility returned to compliance and the action was closed.

I believe Joan provided additional info related to RCRA matters. Thanks Joan!

Thanks all!  
Andy

Hello Beth,

My colleagues in EPA Region 3 will be able to help you. They are copied on the email.

Regards,

Cathy Milbourn

**Subject:** Chemical Spill near Delaware River Pennsylvania

Hello Cathy,

I am a reporter at The Epoch Times.

I would like to look any any inspection reports for the Trinseo PLC, chemical plant in Bristol, Pennsylvania, which spilled a "Latex emulsion product" into a creek feeding the Delaware River on Friday.

I want to see what chemicals they keep in their building.

I would like to know the specific names of the chemicals (I believe it is a mixture) that was spilled.

ECHO has a problem with Pennsylvania data so I can't find the company there.

Can you help me fill in any blanks?

Thanks,

--
